

# Chartsmith® for Mac OS X

---

**Thank you for downloading Chartsmith!**

The Chartsmith package includes the following:

- **Chartsmith.app**
- **GettingStarted** - a folder storing the intstallation and licensing instructions, the release notes and a set of tutorials
- **SampleDocuments** - a folder storing sample documents and templates
- **AppleScriptInterface** - a folder with information about Chartsmith's AppleScript interface, plus a sample script

---

## For new users....

It is recommended that all new users of Chartsmith begin by going through the Chartsmith tutorials. In 20 minutes time, you will have a very thorough introduction to the basic use of Chartsmith, plus be introduced to many of Chartsmith's power features.

---

For installation and licensing instructions, see the file titled **InstallationAndLicensing** stored in the *GettingStarted* folder.

---

For help using Chartsmith, see online Help, the Chartsmith tutorials, or email us at **chartsmith@blacksmith.com** with your question or comment.

---

To purchase a software license for Chartsmith, visit <http://www.blacksmith.com>
