1. Description

CHORDOPHONET is a Virtual Harp and Hammered Dulcimer sample based software instrument.

Features:

- **Mode Selector** to switch between Harps, glissandos and hammered Dulcimer sounds:
 - **Concert Harp**
 - **Celtic Harp**
 - **Harp Glissando** (Single and Multiple, Ascending and Descending)
 - **Upward-Downward Harp Glissando** (Two handed)
 - **Hammered Dulcimer**
 - **Hammered Dulcimer Octaves**
- **Biquad Filter**, The values are automatically computed when you select any of the filter types. Filter switch includes: LP (Low pass), BP (Band pass), HP (High pass), notch, peak, low pass and high pass shelving filter with adjustable cutoff frequency and bandwidth.
- Each pluck was recorded in 16-bit resolution (44100 Hz sampling rate), using special equipment in a low noise environment.
- Pre-recorded **Harp Glissando** and **Upward-Downward Harp Glissando**, capturing the sounds produced by rapid sliding motion of fingernails or finger tips across strings (Ascending gliss: keyrange C3..B3 - Descending gliss: keyrange C4..B4). Alternatively **Glissandos** can be played by running one's fingers up and down the white keys of the keyboard, creating an ascending and descending gliss effect.
- **Release Time** parameter.
- **Virtual Room**: Free variation of acoustic ambience thanks to complete separation of the Harp or Dulcimer and the room.
- **Affordable price** and user-friendly attitude are sure to attract many enthusiasts and musicians.
- **FULL MIDI Automation**: Complete MIDI Continuous Controller. You can use this to automate parameter changes from a sequencer, or to control your synthesizers from an external MIDI control surface.

2. System Requirements

- **Windows Operating System:** Native dll file for Windows® XP, Windows® Vista, Windows® 7, Windows® 8 / x86 (32 bit). For x64 (64 bit) test the demo plugin with your host internal bit bridge as in Cubase (VST Bridge), FL Studio (Bridged mode), Cakewalk SONAR X1, X2 (BitBridge) or via external jBridge application for Ableton Live, PreSonus Studio One, etc.
- **Apple Mac OS X:** See options available for Macintosh users in Universal Binary and more.
- **Linux Operating System:** with the following requirements (Special Thanks to Paul Davis) or in MusE from v2.1 with Native VST support.
- 500 MHz Processor (Pentium®, Celeron® AMD® or equivalent) minimum.
- RAM: 128 MB or higher recommended.
- VST compatible host / Digital Audio Workstation DAW/ MIDI Sequencer: This VST software can be "plugged in" to any host application that supports VST Technology like: Image-Line FL Studio, Steinberg Cubase, Cakewalk SONAR X1 - X2 (Producer, Studio, Essential), Ableton Live, Cockos Reaper, PreSonus Studio One, Acoustica Mixcraft, Synapse Audio Orion, Sony Acid Pro, MakeMusic Finale, Avid Sibelius, Mackie Tracktion, Audio Mulch, Steinberg Nuendo, Magix Samplitude, Magix Music Maker, Cantabile Lite - Solo - Performer, n-Track Studio, VSTHost, SAVIHost, M-Audio Evolution Sound Studio II Standard & Pro, PowerTracks Pro Audio, Making Waves Studio, Native Instruments KORE 2 Software-Hardware workstation and much more ...
- An ASIO® soundcard is recommended for low latency real-time play.
- **Please test extensively the demo version of your selected product (s) in your host to make sure there are no misbehaviors before purchasing.**

3. Installing and Uninstalling VST Plug-in

To install VST plug-in, follow these steps:

- Unzip the file.
- The file must be in a directory where the VST host is looking for VST plug-ins.
- **Place the Chordophonet.dll file into VST Plug-ins Folder of your host application.**

To **uninstall** simply remove the **Chordophonet.dll** file of your VST Plug-ins folder.

4. MIDI Implementation Chart for Syntheway Chordophonet:

The following **MIDI Continuous Controllers** (MIDI CC) messages are recognized and affect the described parameters:

MIDI CC #	-	Controller Name
CC# 00	-	CHORDOPHONET SELECTOR
CC# 07	-	MASTER VOLUME
CC# 72	-	RELEASE - ENVELOPE GENERATOR
CC# 88	-	REVERB SIZE ROOM
CC# 89	-	REVERB WIDTH ROOM
CC# 90	-	REVERB DAMPING FACTOR ROOM
CC# 91	-	REVERB MIX LEVEL
CC# 20	-	CUTOFF - BIQUAD FILTER
CC# 21	-	BANDWIDTH - BIQUAD FILTER
CC# 22	-	GAIN for EQ Peak, High/Low Shelf
CC# 23	-	FILTER TYPE - BIQUAD FILTER

5. Version History

Software Development and Release Stages

- **v1.0: First release** (General availability)
- **v0.90/0.98:** Alpha released (Testing and development period).

6. Technical Support and Contact

Free Technical Support to Registered Users:

Please take a look at the [FAQ \(Frequently Asked Questions\)](#) before you contact customer support. If you have any problems with instruments and effects, you can contact us by [e-mail](#). Support requests are answered as quickly as possible, if you send the following information:

- Syntheway Product
Host Application (Name & Version number)
- A very detailed description of the problem

Your inquiry will be answered in the order in which it is received. Due to the volume of e-mail, sometimes, these may not be able to respond immediately.

7. FAQ (Frequently Asked Questions)

Here you will find answers to the most frequently asked questions: please take a look at the FAQ webpage:

8. Update and Upgrade Policy:

As a general policy, Updates between minor Syntheway product versions are free. Upgrades between major Syntheway product versions are paid.

Updates:

An update is an interim release that fixes bugs, enhances usability, updates data, or adds a new feature to an existing version. For example, you would update Magnus Choir v1.00 to v1.1. They get distributed electronically after their release. If you have already registered, and you will not get the email with "link to download update" within a reasonable time, send an email from the email account that was used with your registration. If your email address changes, please notify us support@syntheway.net so that we can update our database.

Upgrades:

Upgrades are changes in the major version number of the product (containing major new functionality, improves performance, enhances usability). When we release a major new release, we change the first number in the version number. So you switch to a higher version of a program within the same VSTi/VST product family. For example, you would upgrade Syntheway Chordophonet v1.00 to v2.00. Upgrades are free when... you purchase Syntheway product and we introduce a major new release (e.g. moving from Realistic Virtual Piano v1.xx to v2.0) within 60 days of your purchase date. Any release containing major new functionality, an upgrade fee will probably be chargeable.

Specially discounted upgrade pricing is available to registered users of the immediately prior version of Syntheway Product. That is, if you are a registered user of v1.xx, you are eligible to upgrade to v2.0 at the special discounted upgrade price.

How often are updates and upgrades released?

We create product updates and upgrades when:

- New features or functionality have been added.
- Bugs and problems have been corrected.
- New features have been added or supported.
- New optimizations have been integrated into the VST architecture.

Check out for updates/upgrades to this software at:

<http://download.syntheway.net>

Notes:

- Make sure your email account can accept emails coming from us (domain: @syntheway.net). Also take a look to your SPAM folder.
- Personal details are kept private and are never spammed. For Updates Syntheway uses "BCC" to protect your email address privacy.

9. License:

Syntheway Chordophonet VSTi - License Agreement

PLEASE READ THIS LEGAL AGREEMENT CAREFULLY.

The use and redistribution of "**Syntheway Chordophonet VSTi**" ("Software") is subject to the following conditions:

1. All copyrights to the Software are exclusively owned by the Author: Daniel Alberto Laiseca.
2. You (the user) have the right to evaluate this Software for the period of 30 days, provided the Software is not used for profit, including but not limited to creating patch libraries and sounds for any pieces you are profiting from. Should you continue use of the Software after your evaluation period expires, or use it for any profit, you shall pay the registration fee.
3. The unregistered demo version of the Software may be freely distributed, with exceptions noted below, provided the distribution package is not modified in any way. No person or company may charge a fee for the distribution of the Software without written permission from the Author. The unregistered demo version of the Software may not be bundled or distributed with any other product without written permission of the Author.
4. Once registered, the user is granted a non-exclusive license to use the Software on one or several computers, for any legal purpose, at a time. The registered Software may not be rented or leased, or given away to the third person, but may be permanently transferred, if the person receiving it agrees to the terms of this License Agreement. If the Software is an update, the transfer must include the update and all previous versions of the Software.

You may not use, copy, emulate, clone, rent, lease, sell, modify, decompile, disassemble, otherwise reverse engineer, or transfer the licensed program, or any subset of the licensed program, except as provided for in this License Agreement. Any such unauthorized use shall result in immediate and automatic termination of this license and may result in criminal and/or civil prosecution.

5. THIS SOFTWARE IS PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR

IMPLIED, INCLUDING BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT OR ARISING FROM A COURSE OF DEALING, USAGE, TRADE OR PRACTICE. Some jurisdictions do not allow the exclusion of implied warranties, so the above disclaimer may not apply to you.

IN NO EVENT SHALL THE AUTHOR BE LIABLE FOR ANY SPECIAL, DIRECT, INDIRECT, OR CONSEQUENTIAL DAMAGES OR ANY DAMAGES WHATSOEVER RESULTING FROM LOSS OF USE, DATA OR PROFITS, WHETHER IN AN ACTION OF CONTRACT, NEGLIGENCE OR OTHER TORTUOUS ACTION, ARISING OUT OF OR IN CONNECTION WITH THE USE OR PERFORMANCE OF THIS SOFTWARE.

6. Installing and using the Software signifies acceptance of these terms and conditions of this License Agreement.

7. If you do not agree with the terms of this License Agreement you must remove the Software files from your storage devices and cease to use the product.

8. Acknowledgements: VST is a trademark of Steinberg Soft- und Hardware GmbH. All other trademarks and trade names are the properties of their respective owners, and do not imply owner's endorsement of this product, or guarantee full compliance with owner's standards.

9. All questions concerning this License Agreement shall be directed to: e-mail: license@syntheway.net

10. Evaluation & Registration

The code for the licensed and evaluation versions of this software are identical, but **Demo Version** have limitations described below.

The demo restrictions are:

- - Limited keyrange: Only 2 octaves available (Range: C5-B6, Notes: 24) for Concert Harp, Celtic Harp and Hammered Dulcimer.
- - Glissandos and Dulcimer octaves are disabled.
- - Emits a noise every 10 seconds.

The Registered Version does not have nagging sounds and their use is unlimited.

In developing software we have embraced "try before you buy" shareware concept that allows you to evaluate a product in action and decide on real performance prior to taking out your wallet. As additional benefits there are free upgrade policy (within version numbers -e.g. 2.0 to 2.xx) and technical support via e-mail.

The full version is available to purchase, as downloadable software, and you can download the registered version when your payment is received. You will receive an email containing registered download link and password protection. For details on ordering through the Web, please visit us at: <http://shop.syntheway.net>

By buying our software you automatically support our development for upcoming products.

How to purchase with PayPal:

- **Use the convenient PayPal® Shopping Cart on the website.**

Orders are processed using the secure PayPal® shopping cart system. You will see an "Add to Cart" button on each individual VST Instrument / Effect. Click on the button for each product you wish to order, and follow the simple directions to complete your transaction. You can purchase online using credit card, debit card, PayPal funds, bank funds or e-check (No additional cost). For your protection, PayPal verify credit card information. The process normally takes about 30 seconds. When your information has been successfully updated, you will see a confirmation message and receive an email with Payment Details and Transaction ID number.

After your purchase, when payment is received, **registration is delivered by email usually less than 24 hours**. You will receive to your assigned PayPal email address an email containing a download link and a file password protection. If you don't receive the "link to download" within 24 hours, it may be due to a spam filter. Check your filters and "Junk Email" folder, or [contact us](#) if you are still having trouble. We apologize for any inconvenience caused by these delays.

- **If you do not have a PayPal® account...**

If you do not have a current PayPal® account and would like to open one, go to <http://www.paypal.com> and click on "Sign up for your FREE PayPal® account." It takes just a moment or two to set up, and the directions are very easy to follow.

Please try the demo before purchasing the full version to make sure this product runs fine on your system. Syntheway has an explicit policy of no refunds, so we cannot accept returns or provide refunds after registered program is downloaded.

:::: Safe Shopping: 168 bit keys High-grade Encryption. Syntheway software is distributed worldwide only via internet shopping at our websites: <http://shop.syntheway.net> or <http://syntheway.com/shop.htm> ::::
